NEWS AND VIEWS . . .

And What Have You

By BOB CRAIG

Boy did we goof. We hope that everybody found out that they were supposed to move their clock up Saturday night and not Sunday.

That 2 a.m. business threw us a curve - we knew the time change was on Sunday, but thought it was at midnight.

Lana Acklin and Charlotte Griffin write the McCaulley School News for the Herald under the heading "From the Eggles' Beak." This week they brought in a column that, while we do not consider it school news as such, we do feel that these youngsters have the right to express their opinions.

Because of this we are running what they have to say more as a letter to the editor and enclosing it in this column.

"Well as you all know May 20, 1967, is when we have the election to see if we will keep our school or not.

We, the students of McCaulley High School would like to have some thing to say about keeping our school. First of all we don't see any reason why anyone would want to close down our school. We think our school is just as good as any other school. The students also think that we have the GREATEST Superintendent, Mr. Green, and GREAT-EST Principal, Mr. Hill, of any school. This is how we would like to express our feelings, 'WE DON'T BOTHER YOU, WHY SHOULD YOU BOTHER US!' Some people think that a student that graduates from McCaulley hasn't had much education, but out of all the students that graduated from McCaulley High not one has flunked out of College. Last year, in percent, of students that graduated from McCaulley and went to college we had 100 percent. We would match that with any school. We would like to say if McCaulley school closes down, you have destroyed not only an excellent educational institution but a community."

We personally would be very disappointed in the students going to school at McCaulley if they did not feel this way about their school.

The only point that we would like to make in regard to this letter by these girls is that we get the feeling from reading it that they feel that outsiders are trying to close down their school and we ao not believe this is the case.

The consolidation of the McCaulley School with Hamlin or any other district is a matter for the people residing in the McCaulley School District to decide. The people of Hamlin can only express a willingness to consolidate with McCaulley if that is what the people of McCaul-

As we tried to express in this column last week, the citizens of McCaulley need to decide first if they want to continue operating their own school at Mc-Caulley. If they do, then fine, that is the end of the matter. But, if they feel that they cannot continue to operate their school, then they need to decide with which school district they would like to consolidate.

Girls, what you need to understand when you say "We don't bother you, why should you bother us" is the fact that the people that must make this decision are your parents and their friends and neighbors — not some mean stranger off someplace else. And they must consider many things in making this decision, the first of which is of course your future and the future of your classmates coming up behind you.

What we are trying to say to you and more important to your parents and neighbors is that you must assume the responsibility for this decision yourselves.

Right or wrong there are some people, and we have no way of knowing how many, who feel that they can offer the youngsters of McCaulley a better school for the same money by consolidating with another district.

If the voters of your school district vote to do away with your school we can only hope that you can understand that they are trying to do what they think is best and that it was a hard decision for them to have to make because it is their school and community too. And then if they vote to keep your school, work hard to justify their faith in it.

Take a weekend trip with the money you save on 7 Gas Air Conditioning.

Well . . . maybe your savings on gas air conditioning won't get you to the Sphinx, but they will mount up. Because one of the main advantages of gas air conditioning is economy. It costs you less to use. It costs less in maintenance, too. Gas air conditioners are built better.

They last longer, and there are fewer moving parts to wear out. And Lone Star offers special summer rates for cooling. To get the details on this high quality equipment for your home, call your air conditioning contractor or LONE STAR GAS for a free estimate.

It takes a Good Eye...

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his aeighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.
